

By Dr. Telly Kamelia

## If you only need the buying answer

The current print listing for **Contemporary Leadership in Sport Organizations** is one of the stronger ownership routes in the current queue. It is only slightly above the sampled 90-day digital access price, but well below the sampled lifetime digital license. That makes the decision less about “print versus digital” in general and more about whether you want temporary access or a physical sport-leadership reference you can keep.

| <b>Format</b>     | <b>Source</b> | <b>Price</b>                        |
|-------------------|---------------|-------------------------------------|
| Print             | Merybook      | \$54.29 <a href="#">Check price</a> |
| Digital (90 days) | HKPropel      | \$52.00 <a href="#">Check price</a> |
| Lifetime digital  | HKPropel      | \$80.00 <a href="#">Check price</a> |

This is the kind of market where print becomes very easy to justify. The short-term digital option is only slightly cheaper, while the current print copy is clearly better than the lifetime digital price if you want something that stays with you.

## What this book actually teaches

A sport-leadership text matters because it helps students think about leadership, organizations, decision-making, teams, culture, and management in sports settings where abstract leadership language has to become practical. Good books in this area usually become more valuable once students move into internships, administration, and organizational roles.

That is why ownership can make sense. A kept print copy may remain useful later in sport management or athletic administration, especially when the price gap versus short-term digital access is so small.

# Who should choose digital and who should buy print

Choose short digital access if you only need the book briefly and want the absolute lowest first cost. Buy print if you want a sport-leadership reference you can keep. In the current market, print is one of the stronger ownership-value routes.
